Subject: Camp Services at Chung-1 Construction Camp

I have recently returned from a visit to PKP's Chung-1 construction camp at which Western Services is providing accommodation for 15 senior staff in porta cabins, 10 senior staff and over 200 junior staff in tents plus meals for senior and junior staff in separate messes and laundry services for all staff.

I am pleased to advise you that I found the camp well organised and carefully maintained. My room was clean and well furnished and the condition of all portacabins I visited was very good. The meals were enjoyable, benefiting from good quality ingredients and capable catering staff. I think the quality of the camp is a significant contributing factor to the morale on any project, and therefore I take this opportunity to thank the management, camp boss and staff of Western Services for a job well done.

Best Regards,

P. J. MacLaurin
